intAct US-Power

Starter batteries | filled and charged
Completely maintenance free | calcium/calcium technology

The batteries of the US-power series are specifically designed for US vehicles with side terminal connectors. The high-performance batteries manufactured on the basis of the innovative

calcium-calcium grid expanded metal technology are completely maintenance-free and feature a particularly low self-discharge and excellent cold start performance.

Battery	Capacity c20	Amp. »EN-Norm«	Terminal kind	Position of terminal	Dimensions mm L x B x H
56010	12 V 60 AH	460	front terminal	+ -	230 x 179 x 180
57010	12 V 70 AH	510	front terminal	+ -	260 x 179 x 180
58010	12 V 80 AH	850	A	+ -	306 x 192 x 192

Product line: intAct US-Power, 12 V starter batteries
Model: Calcium/calcium expanded metal technology
Status: GUG = filled and charged
Quality: OEM quality
Storage life: Storage life of up to 9 months
Charging voltage: Approved for charging voltage of up to 14.8 V
Magic eye: Charging status control

M.A.S.S: Premium-Power Anti Spilling System (roll-over test)
+ integrated backflash protection
Type of terminal: US front terminal with internal thread (56010/57010)
A conus terminal to DIN 60095 T2 (58010)
Properties: Completely maintenance free and sealed
Use: US-vehicles
