## Lithium-Ion-Battery

### GOB-0240104-WC

**24 V (25.2 V) / 10.4 Ah Battery for PG – Power Golf**

Lithium-Ion-Battery in plastic housing

#### Technische Daten:

|                              |                                                                                                     |
|------------------------------|-----------------------------------------------------------------------------------------------------|
| Nominal voltage:             | 24 V (25.2 V)                                                                                       |
| Nominal capacity (one hour): | 10.4 Ah                                                                                             |
| Standard charging:           | 2 A CC (constant current) charge to 29.4V,<br>then CV (constant voltage) 29.4 V,<br>until I = 0.7 A |
| Maximum discharge current:   | 15 A                                                                                                |
| Maximum peak current:        | 30 A (3 s)                                                                                          |
| Cut off voltage:             | 21 V                                                                                                |
| Operating temperature:       | Charging : 0 - 45°C<br>Discharging : -20 - 60°C                                                     |
| Storage temperature:         | -20 - 45°C                                                                                          |
| Weight:                      | 1.4 kg ± 5 %                                                                                        |

**Dimensions:**
